

100 bits at your fingertips

When you are constantly working on projects, you always need your most used bits right on hand and safely organized. CMT gives you the perfect solution for keeping it all in sight and within reach with our 100 piece organizer. Conveniently holds any size router or drill bit by using our interchangeable bushings to fit all CMT shank diameters. See options listed below.

DESCRIPTION	ORDER NO.
Bit organizer (without bushings)	03.51.0106
Interchangeable bushings for shank Ø6mm (20 piece)	03.51.0046A
Interchangeable bushings for shank Ø6,35mm (20 piece)	03.51.0047A
Interchangeable bushings for shank Ø8mm (20 piece)	03.51.0048A
Interchangeable bushings for shank Ø9,5mm (20 piece)	03.51.0057A
Interchangeable bushings for shank Ø10mm (20 piece)	03.51.0058A
Interchangeable bushings for shank Ø12mm (20 piece)	03.51.0059A
Interchangeable bushings for shank Ø12,7mm (20 piece)	03.51.0049A

**Formula 2050
blade and bit cleaner**

Finally, a safe, environmentally-friendly cleaner that is more effective than all of those hazardous chemicals used to clean cutting tools.

Saw shops know how to get the most out of cutting tools. They know that the pitch and resin that wood leaves behind greatly shortens the useful life of carbide. We had several quality saw blade sharpeners across the country test our Formula 2050. "Phenomenal" and similar words were heard over and over about the performance of Formula 2050.

Most blade and bit cleaning products work with a dissolving action. It takes some powerful and nasty chemicals to dissolve wood residues and adhesives. Our safe and non-toxic Formula 2050 penetrates the microscopic cracks in the resin and attacks the bond between it and the carbide or steel surfaces. The resin releases its grip and you simply wipe it off. A clean cutting surface runs cooler and works less in the cut.

The excess friction of a resin-coated blade causes heat build-up and carbide breakdown.

Formula 2050 keeps your tools clean and helps you increase the life span between sharpenings and replacement. We guarantee your satisfaction with the performance of our CMT Formula 2050 Blade and Bit Cleaner.

- Removes pitch, resin and adhesive residue from all woodworking cutting tools (saw blades, router bits, drill bits, shaper cutters, planer blades, etc.).
- Completely non-toxic, non-flammable and certified biodegradable. Formula 2050 is a safe, earth-friendly product.
- Do not rinse after cleaning. Formula 2050 provides protection from rust and corrosion. Keeps your table saw top rust free too!
- Can be applied by spray bottle or used in ultrasonic cleaners and dip tanks.

★★★★★ **This product received a five-star performance rating from "Wood Magazine"**

DESCRIPTION	ORDER NO.
0,500 lt. spray bottle (master packaging 10 bottles)	998.001.01
